

GRADUATE SCHOOL AT SETON HALL UNIVERSITY THROUGH GCU-SETON HALL UNIVERSITY PARTNERSHIP

Students pursuing the B.S. in Chemistry degree may complete their bachelor's degree in seven semesters and enroll in Seton Hall University's M.S. in Chemistry program (<https://www.shu.edu/academics/ms-chemistry.html>) in their eight semester, thus accelerating their education and saving one semester of GCU tuition. For more information, see the GCU Department of Chemistry & Biochemistry pages. (<http://catalog.georgian.edu/undergraduate/school-arts-sciences/chemistry-biochemistry/>)
