

ART & VISUAL STUDIES

Students interested in studying art may earn a Bachelor of Arts (B.A.) degree in Visual Art.

The major in art provides students, through a well-balanced program of theory and practice, an opportunity to develop as artists while preparing them to be practicing artists in the future.

Studio courses offer students the opportunity to pursue their creativity in a variety of media while developing skills. The ability to develop strong conceptual concepts and to express them creatively is emphasized within the context of an artistic practice. An interdisciplinary approach to art making is encouraged.

Through a range of art history courses, students acquire knowledge of both western and non-western art movements, critically analyze individual works, and understand the uniquely integrative nature of multicultural art study.
