

VISUAL ART, B.A.

Learning Outcomes

Upon successful completion of the program of studies for Art and Visual Studies, the student will receive a B.A. in Visual Art and will have given evidence of the following outcomes and goals:

- Students will identify the conceptual approach and analyze the creative process used by a variety of visual artists through in class discussions and exams.
- Students will apply the critical thinking skills that are based on visual clues with increasing skills of perception, accuracy, and detail through assignments and in class presentations.
- Students will create visual artwork that shows progressive skill in the processes and principles of art and design evaluated within the student's portfolio on a progressive basis.
- Students will identify significant artists and periods of art history from a global perspective and will conduct academic research to develop a mastery of selected artists and/or art periods.
