

# APPLIED ARTS & SCIENCES, B.A.

---

## Learning Outcomes

Upon completion of the Applied Arts and Sciences degree program, students should be able to:

- Demonstrate acquisition of skills, knowledge or abilities needed to advance in their chosen profession, enter into graduate programs, or change careers.

## Requirements

To earn this degree, you must successfully complete at least 120 credits, including your General Education (<http://catalog.georgian.edu/undergraduate/academic-programs/bridge-general-education-program-requirements/>) requirements and the major requirements below.

## Major Sequence

Interdisciplinary Module: 30 credits at the 300 or 400 level in two or three academic disciplines distributed as follows:

- Focus Area: 18 credits from one discipline.
- 12 additional credits from one or two other disciplines.

Focus Area may be selected from one of the following disciplines:

- accounting
- art
- biology
- business administration
- chemistry
- criminal justice
- dance
- digital communication
- English
- exercise science, wellness, and sports
- graphic design
- history
- integrative health
- mathematics
- multimedia
- psychology
- religious studies
- social work
- Spanish

In many disciplines there are few evening offerings of 300- or 400-level courses. Prior to choosing disciplines for the interdisciplinary module requirement, students should consult with their advisor to ensure that sufficient offerings are likely to be available at times that suit the student's needs.

The student may have to complete 100- or 200-level prerequisite courses prior to enrolling in the 300- or 400-level courses.

At least 15 of the 300- or 400-level credits in the interdisciplinary module must be taken at Georgian Court University.

All B.A. in Applied Arts and Sciences majors must complete the General Education program requirements listed in the catalog in addition to the requirements for the interdisciplinary module. A course cannot be used to satisfy both a General Education requirement and an interdisciplinary module requirement.
