

HACKENSACK MERIDIAN HEALTH SCHOOL OF NURSING & WELLNESS AT GEORGIAN COURT

The Hackensack Meridian *Health* School of Nursing and Wellness prepares students to promote wellness. Our equitable culture brings together diverse teams for meaningful learning experiences in cultural humility and client-centered care. With programs in nursing, health science, exercise science, integrative health, and social work, our students have opportunities for interdisciplinary collaboration and research that provide rich experiences in comprehensive and truly integrated healthcare. We envision a future where our graduates maximize wellness in our community while advocating for the most vulnerable populations.
